DEBIT CARDS

NETBENEFITS ACCESSCARD®

ADVANTAGES OF THE DEBIT CARD:

- Pay directly from your account(s) at the point-of-sale for qualified expenses
- Charges are paid directly to the provider/retailer
- No waiting for reimbursement
- Can be loaded to your digital wallet for Apple Pay or Google Pay

ELIGIBLE EXPENSES:

The IRS determines what expenses you can pay for when using your Flexible spending and reimbursement accounts. For general medical expense information, see IRS Publication 502 at <http://www.irs.gov/pub/irs-pdf/p502.pdf>. For child and dependent care expenses, see IRS Publication 503 at <https://www.irs.gov/pub/irs-pdf/p503.pdf>.

USING THE CARD:

To activate your NetBenefits AccessCard® call the number on the back of the card and follow the activation instructions. Or, after logging into [NetBenefits](#), select **Flexible spending and reimbursement accounts** tile, choose **Manage debit cards** and active your card on the portal. You can also set a travel notice, order a debit card for a dependent, set a PIN, and perform other actions.

Some Flexible spending and reimbursement accounts may not require you to submit documentation for purchases made at retailers that use an inventory information approval system (IIAS), such as pharmacies. These merchants will approve eligible expenses at the point of purchase. **We encourage you to save your receipts.** The Fidelity NetBenefits AccessCard® is a chipped card. Please note that in rare instances certain merchants may deny your card if they have an older debit card terminal. Be sure you ask the merchant to run your card manually.

For a complete list of IIAS merchants, visit <https://www.sig-is.org/>. When using your card at these merchants, you can use your card for the entire purchase amount. Eligible expenses will be charged to your debit card. You'll need to use another form of payment for any ineligible items. **Documentation may be required if eligible items are not verified at the point of sale. You will receive an email, text or mailed notification if documentation is required.**

Important Note: Most debit card usage for flexible spending accounts (FSA) will only be for the current calendar year. Claims that need to be filed outside of the current calendar year will need to be done manually.

NETBENEFITS® FLEXIBLE SPENDING AND REIMBURSEMENT ACCOUNTS

NETBENEFITS COMMUTERCARD®

DEBIT CARD DOCUMENTATION REQUIREMENTS

You may be required to submit documentation for a debit card transaction on your NetBenefits AccessCard® or NetBenefits CommuterCard®. All claims submitted via paper form or submitted through [NetBenefits](#) will require documentation. For more information on how to submit a claim, please view the **File a Claim** section.

LINK A BANK ACCOUNT

You can link your personal bank account to your Flexible spending and reimbursement accounts by selecting [NetBenefits](#), and then the **Flexible spending and reimbursement accounts** tile. Select **Link a bank account**. You can add your account to quickly reimburse yourself for eligible health care, dependent care, or health reimbursement arrangement expenses paid out-of-pocket by you or your eligible dependents. All plan types would be attached to this direct deposit.

Complete the required fields for adding a bank account and select **Submit**.

Important tips for verifying your bank account

- The bank account must be in your name and social security number. The banking verification process helps ensure that your name, social security number, bank name, and account number is a match.
- The bank account must have a positive balance at the time of verification.
- The bank account must be based in the United States
- The bank account cannot be a prepaid debit card account, home equity line of credit, line of credit, or credit card check.
- The bank account cannot be in a negative status, frozen status or be a closed account.
- The bank address should be the corporate headquarters address and not a branch location; in many instances, the address will auto-populate.

If we are unable to verify your bank account immediately you will be verified via **micro-deposit**.

IMPORTANT: For security purposes, a micro-deposit ranging from \$0.01 - \$0.99 will be made to your personal bank account in the next 1-3 business days.

Please remember to keep checking your bank account for that Fidelity micro-deposit in your account which would be under "**FIDELITY INVESTM PRETAX BENEFIT TRANS**". Once you see that micro-deposit in your account, note the amount and go to [NetBenefits](#). Once logged in, select the **Flexible spending and reimbursement accounts** tile, then **Link a bank account**. A banner will read "One or more bank accounts require activation."

Select **Activate** and enter the micro-deposit amount that was listed in your banking information. Select **Submit**. Now you are all set to start receiving your reimbursements faster via direct deposit to your own bank account. You will also receive a notification that a new bank account connection has been added.

FREQUENTLY ASKED QUESTIONS

How do I change my health or dependent care flexible spending account payroll deduction amount?

You can only make changes to your health or dependent care flexible spending account at annual enrollment or if you experience a qualifying life event such as marriage or birth of a child. Contact your employer for more information.

What do I do if a provider or my health insurance refunds me for an expense that I paid for with my benefit account or, I requested funds in error?

For a health care flexible spending account (FSA) or health reimbursement arrangement (HRA), you can submit a check along with the claim number to the standard PO Box on claim notifications for this repayment. Or you may contact our call center (833-299-5089) to have the corresponding claim denied so that you can repay the claim within [NetBenefits](#). If the provider refunds your debit card, the account will be repaid, but you may need to contact the call center to make sure the refund applied to the correct claim.

Once I file a claim, how long does it take for my funds to be available?

Claim review occurs within 2 business days. Once your claim is approved, if you have a bank account added to your account this can take as little as 3 business days for those dollars to appear in your bank account. However, a paper check can take up to 7 business days to arrive. You can sign up for Direct Deposit. See [Link a bank account](#) above.

What do I do if my debit card declines or doesn't work?

Ensure you have activated the card and have logged into [NetBenefits](#) to accept your terms and conditions. Within your profile, confirm you have the correct and most recent card by verifying the last four digits. Check your balance and verify via your activity that there are no pending transactions you have not accounted for. If using the card at a retail pharmacy, ensure the item is coded as health care flexible spending account eligible. If you are still unable to determine the cause, check your NetBenefits AccessCard® and contact 833-811-7432.

Can I use my account to pay for medical expenses for a spouse or eligible dependent?

Yes, you may use your funds without penalty to pay for qualified medical expenses for yourself, spouse or eligible dependent even if they are covered under another health plan. Consult a qualified tax advisor for advice.

Can I enroll in both an HSA and a health care flexible spending account?

If you enroll in both an HSA and a flexible spending account (FSA) or health reimbursement arrangement (HRA), you cannot make contributions to the HSA for that coverage period if the flexible spending account (FSA) or health reimbursement arrangement (HRA) are "general purpose" arrangements that pay or reimburse for qualified medical expenses.

However, you still may be able to make contributions to an HSA even if you are also covered under a flexible spending account (FSA) or health reimbursement arrangement (HRA) if those benefit accounts are "limited purpose". Limited purpose flexible spending account (LPFSA) or limited purpose health reimbursement arrangement (LPHRA) are benefit types that restrict reimbursements to certain "permitted benefits" such as vision, dental or limited preventive care benefits. Other permissible combinations include "suspended HRAs" and "post-deductible" flexible spending account (FSA) or "post-deductible" health reimbursement arrangement (HRA). Consult with your tax advisor about your personal situation.

How can I grant my spouse access to my account?

You may submit a Power of Attorney Form or an Authorized Representative Form. These forms can be found via [NetBenefits](#).
